

Residential Water and Sewer Rates City of Woodland Park Effective April 1, 2025

In 2003 Woodland Park implemented an inclining block rate structure to encourage water conservation. With the inclining block rate structure the price per thousand gallons of water increases as usage increases. Water is billed in one thousand gallon increments upon customer's use of each full thousand gallons. Utilities are billed monthly and each billing period is either 4 or 5 weeks long. Following is an example of how the inclining block rate structure works:

Example - Residential Customer (inside city limits) Using 9,000 Gallons
(only the monthly water usage charge is shown)

| | | |
|---------------------------------------|--------------------|--------------|
| first 4,000 gallons (1,000 - 4,000) | \$9.40/1,000 gal. | \$37.60 |

| last 1,000 gallons (9,000) | \$14.93/1,000 gal. | <u>14.93</u> |
